Explanation of Metrics

- **sessions:** Number of user visits to the website during a specified period.
- **engagedSessions:** Number of engaged sessions that happen on the website.
- **MoM (Month-over-Month):** Percentage change from one month to the previous month.
- **YoY (Year-over-Year):** Percentage change compared to the same month in the previous fiscal year.

Explanation of Channels

- **All Channel:** Represents the total aggregate of all traffic sources combined, providing a holistic view of website performance.
- **Organic Search:** Traffic generated from unpaid search engine results, such as Google, Yahoo, Bing, based on user queries.
- **Paid Search:** Traffic generated from paid advertisements on search engines, often through platforms like Google Ads.
- **Paid Shopping:** Traffic driven by paid product listings on platforms like Google Shopping, P-Max, highlighting specific products.
- **Paid Other:** Traffic from other paid advertising campaigns that don't fall into specific categories, such as Line Ads.
- **Display:** Traffic from banner advertisements displayed on third-party websites or apps.
- **Paid Social:** Traffic generated through paid advertisements on social media platforms, such as Facebook, Instagram, or LinkedIn.
- **Organic Social:** Traffic originating from unpaid posts or shares on social media platforms.
- **Email:** Traffic driven by email marketing campaigns, such as newsletters or promotional emails.
- **Direct:** Traffic from users directly entering the website URL into their browser or using bookmarks.
- **Referral:** Traffic referred from other websites through links to the site.
- **Unassigned:** Traffic that cannot be attributed to any specific channel due to tracking limitations or missing data.
